## We Can Make Your Shaving Easier

Shaving in the modern way—with modern utensils—is a real pleasure rather than a nuisance.

However, even some of the latest shaving devices are not a big improvement over the old. But we are in position to know which are the most worthy, as we have had an opportunity to investigate them all.

We tender you a most hearty invitation to inspect our worthy assortment of razors—strops—hones—blades—brushes—soaps in all forms—soothing ointments—etc.

### SHE CURED HER NEIGHBOR

Long Suffering Wife Finally Put a Stop to Continued Borrowing.

"Well, I've found a way to stop my neighbors from borrowing," said a young suburban matron gleefully, the Philadelphia Record states. "You see," she explained, "we are not near any store and, of course, sometimes one has to depend on a neighbor in an emergency. But my particular neighbor seemed to have such emergencies nearly every day. And it was usually vinegar that she wanted. Now we are particular about our vinegar and get the best taragon, and, of course, when Mrs. Neighbor asked for vinegar we gave her our best. But when she returned it she sent a very cheap grade, which we were unwilling to use and were obliged to throw out. This was repeated so often that we began to weary of it, and suddenly a bright idea struck me. I carefully poured her cheap vinegar into a bottle and saved it. Next time she asked me to lend her vinegar I sent her own to her. The cure worked. She has never asked for another drop and I suppose she thinks I am a mean sort of neighbor. But I don't care."

### MAKE SILK SAUSAGE SKINS.

Germany now is making sausage skins of raw silk, according to the Rheinische Westfälische Zeitung. Even before the war experiments were being conducted in the making of a hollow casing of raw silk to be filled with sausage meat. The Elberfeld ribbon factory is now turning out great lengths of this sausage casing. Just now, however, owing to the shortage of meat, very large quantities of casing are not needed. With the ordinary prices of raw silk prevailing the new casing is no dearer than the usual sausage skins.

The Berliner Lokal Anzeiger of August 3 says that a new invention has been introduced by the Berlin inventions bureau for putting meat up in briquettes for transport. These briquettes, it is said, are impervious to the attacks of insects.—New York Times.

### TRAINING FOR THE BLIND.

Announcement has been made that the Pennsylvania Institution for the Instruction of the Blind, at Overbrook, Pa., is ready to supply skilled piano tuners on demand. The Philadelphia Public Ledger declares that this "bears witness to the progressive spirit of the school in its successful endeavor to widen the economic horizon for those who might sit listless in the dark lamenting their condition. Abroad among the war blinded, and here at home among our own people, new and hopeful opportunities increase. In the enhanced subtlety of the senses remaining nature provides a partial compensation for the loss of sight. Such schools as the admirable one at Overbrook train their pupils for a range of employment surprising to those who have not investigated the modern schooling of the blind."

### THE DUTY OF HUSBANDS.

"Girls nowadays take too light a view of marriage," said Prof. C. Rockwell, the Chicago ornithologist. "Lecturing before a summer school of girls last month, I happened to remark:

"The ostrich sees very little; on the other hand, it digests everything."

"Gee," said a girl on a back bench, "what an ideal husband an ostrich would make!"

### WRONG.

Teacher—Seven cows are walking along a path in single file. Which one can turn around and say, "I see six pairs of horns."

Fresh—Why, the first cow.  
Teacher—Wrong, John, cows cannot talk.—Panther.

### NONCOMMITTAL.

"How do you intend to vote next fall?"

"I ain't tellin'," replied Farmer Cornstossel. "I want to have the pleasure of bein' persuaded as long as possible."

### FORCIBLE SPEAKER.

Nipp—That fellow Talkalot is as stubborn as a mule.

Tuck—Yes, but the mule has an advantage in that it argues with its feet.—Town Topics.

### WHITEWASH OF HIGH VALUE

Government Standard is Very White and Will Last Well When Used on Outside Jobs.

Following is the well-known standard recipe for "Government Whitewash": Shake one-half bushel fresh lime with boiling water, covering it to keep in the steam. Strain liquid through a fine sieve and add seven pounds of fine salt, previously dissolved in warm water; three pounds of ground rice, boiled to a thin paste and stirred in, boiling hot; one-half pound boiled gilders whitening; one pound white glue, soaked first in cold water until swollen, then carefully melted over fire. To this mixture add five gallons of hot water and let it stand covered a few days.

A pint of the whitewash will serve to cover nearly a square yard. It is very white and will last well when used on outside work.

### Changing Seasons Bring Colds.

"Stuffed-up head," clogged-up nose, tight chest, sore throat are sure signs of cold, and Dr. King's New Discovery is sure relief. A dose of this combination of antiseptic balsams soothes the irritated membrane, clears the head, loosens the phlegm, you breathe easier and realize your cold is broken up. Treat a cold persistently; half-way measures leave a lingering cough. Take Dr. King's New Discovery until your cold is gone. For 47 years the favorite remedy for young and old. At your Druggist, 50c.—Advertisement.

### Frigidity Saves From Fire.

Two travelers just back from their holiday trip were disputing as to which had experienced the greatest cold. Said one: "In the part of Iceland where I was the ground is frozen so hard all the year round that when they want to bury a man they just sharpen his feet and drive him in with a pile driver." The other replied, "Yes, I know that place. Didn't stay there long; found it not bracing enough for me; went on to a small town further north. The hotel where I was staying caught fire. No fire escapes or ladder in that primitive settlement. Staircase burned away. Luckily kept my presence of mind. Emptied my bath out of the window and slid down the icicle."

### Children Cry FOR FLETCHER'S CASTORIA

### Origin of Carnation.

The carnation was cultivated by ancient Greeks, who gave it the name of Dianthus, flower of the gods. They used it for making chaplets, whence the name "coronation" was derived. It was partaken of at great banquets as a kind of salad, and during the reign of Charles II it was used in the making of a liquor.
